On All Fours

This article is about the famous Jeep 4x4, a car beloved by so many. The history of the Jeep began in 1941, when Willys-Overland Motors of Toledo, Ohio, was contracted by the U.S. military to build nimble and tough off-road vehicles for wartime. Known as the Willys MB, the first jeeps were light enough to be pulled from the mud yet strong enough to haul military weaponry. The cars could ford rivers and climb hills. The jeeps were even used as battlefield ambulances. No one knows for certain the origin of the name "jeep." Some think it was shorthand for "general purpose," or GP, vehicles. Others say it came from the popular Eugene the Jeep character from the World War II, Jeeps would endure a rocky transition to civilian life. Over the decades, the Jeep brand moved from bankrupt auto company to bankrupt auto company, giving rise to the infamous "Jeep curse." Yet Jeeps have always retained their fan base, and sales remain strong. The Jeep proves as resilient in the suburbs as it once did on the battlefield.
